Installation Process For Shopify

1. Add this script code, before closing the '</head>' tag in base.html file,

```
<script type="text/javascript"
src="https://websitespeedy.com/script/ecmrx/ecmrx_168/ecmrx_168_1.js"
defer ></script>
<script type="text/javascript"
src="https://websitespeedy.com/script/ecmrx/ecmrx_168/ecmrx_168_2.js"
></script>
<script type="text/javascript"
src="https://websitespeedy.com/script/ecmrx/ecmrx_168/ecmrx_168_3.js"
></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script></script
```
