PERFORMANCE

Metrics

- First Contentful Paint
- Speed Index
- Largest Contentful Paint
- Time to Interactive
- Total Blocking Time
- Cumulative Layout Shift

Values are estimated and may vary. The [performance score is calculated](#) directly from these metrics.See calculator[See calculator.](#)

Opportunities --These suggestions can help your page load faster. They do not [directly affect](#) the Performance score.

Opportunity

Estimated Savings

Diagnostics -- More information about the performance of your application. These numbers do not [directly affect](directly-affect) the Performance score.

0

These checks highlight opportunities to [improve the accessibility of your web app](improve-accessibility). Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.
